**MAY 2021**

**MYANMAR EXPO HALL,  
YANGON, MYANMAR**

Organised by :

[www.myanwater.org](http://www.myanwater.org)

# BE PART OF MYANMAR'S PREFERRED EXPO FOR THE WATER INDUSTRY

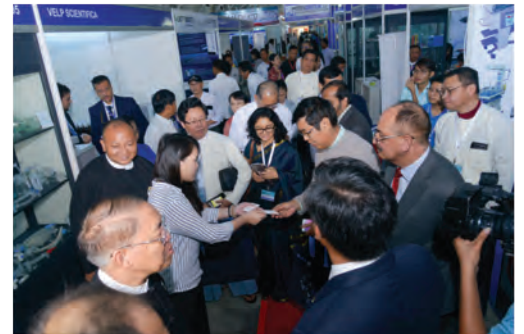

Presenting the best of the industry, the seventh installation of MYANWATER returns with ambitions to match Myanmar's pursuit for nation-building! MYANWATER 2021 – Myanmar's International Water Industry Exhibition is set to take place at the Myanmar Expo Hall in Yangon from 27-29 May 2021, promising a wide array of equipment, supplies, and solutions for improving Myanmar's water production, supply and treatment capabilities.

Myanmar's economy flourishes with aspirations for a better quality of life as it undergoes rapid urbanisation. With an average GDP growth of 6.8% per annum, the country must continue to improve its water production and treatment facilities by upgrading with the latest solutions and equipment. MYANWATER 2021 is the ideal platform to showcase innovations that will cater to the country's water infrastructure needs.

Introduce your product portfolio to thousands of buyers and decision makers in Myanmar. Book a booth today by contacting Ms JuJu at [juju@ambtarsus.com](mailto:juju@ambtarsus.com).

## 5 REASONS WHY THIS IS THE EVENT FOR YOU

- **Meet** over 6,000 industry professionals in Myanmar's water and wastewater industries
- **Source** for new distributors, agents, and strategic partners in Myanmar
- **Boost** your company branding and market positioning
- **Introduce** your brand's latest innovations through product launches and promotional campaigns
- **Develop** new partnerships and contacts through our Business Networking Platform

## CO-LOCATED EVENTS – GREATER VALUE UNDER ONE ROOF!

**MYANBUILD'21**  
MYANMAR INTERNATIONAL BUILDING & CONSTRUCTION INDUSTRY SHOW

**MYANENERGY'21**  
INTERNATIONAL POWER & ELECTRICAL ENGINEERING SHOW

**MIVAR'21**  
MYANMAR INTERNATIONAL VENTILATION, AIR CONDITIONING AND REFRIGERATION SHOW

MYANWATER 2021 will be held concurrently with other infrastructure-related events, namely MYANBUILD 2021, MYANENERGY 2021, and MIVAR 2021. Attracting a wider scope of buyers and decision makers, these interrelated events bring a diverse crowd during the three-day event. Potential attendees include contractors, developers, city planners, public utility managers, building consultants, and civil engineers.

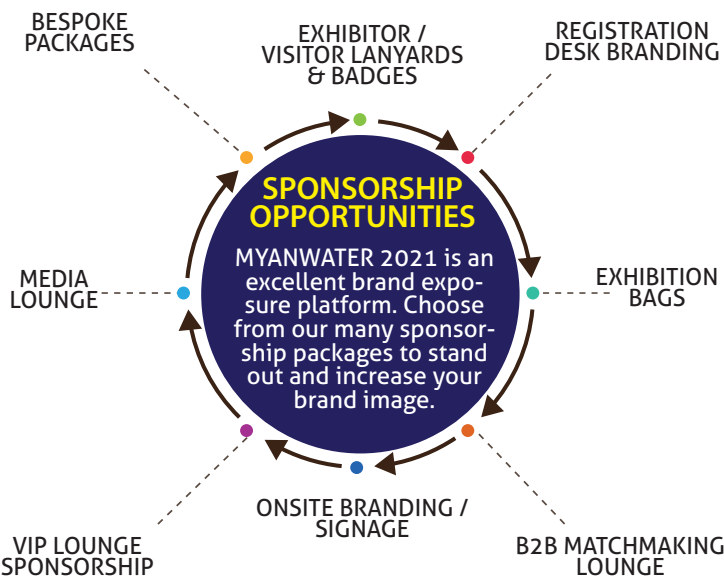

# MYANWATER 2021

## TECHNICAL SEMINARS

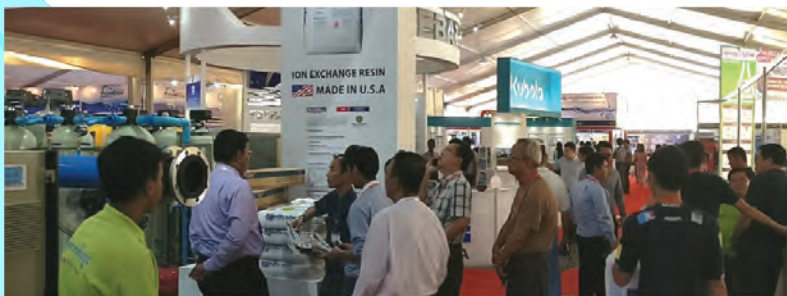

### “Closing the Gap – Distribution of Drinkable Water in Myanmar”

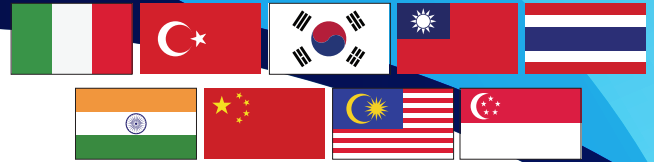

MYANWATER will be hosting symposiums designed for industry professionals with the objective of catching up with the latest innovations, trends, and developments in the water production and treatment sectors. This year’s discourse is titled: “Closing the gap – Distribution of Drinkable Water in Myanmar”. Exhibitors can request to participate in the seminar and present a paper at the conference. To submit a paper for presentation, please send your title and synopsis to Ms JuJu at [juju@ambtarsus.com](mailto:juju@ambtarsus.com).

Can't find your desired package? Feel free to contact Ms JuJu at [juju@ambtarsus.com](mailto:juju@ambtarsus.com) and we'll tailor a package that fits your marketing requirements!

## JOIN THESE PAVILIONS & ENJOY SUBSIDIES FOR PARTICIPATION

If you plan to exhibit at MYANWATER 2021, you may be able to enjoy subsidies, tax incentives and special upgraded booths. If you would like to join any of these Pavilions, contact Ms JuJu at [juju@ambtarsus.com](mailto:juju@ambtarsus.com) for more information.

## WHAT'S NEW IN THE INDUSTRY?

More investors have shown keen interest in managing and distributing Yangon’s water ever since the Yangon City Development Committee (YCDC) has announced its privatisation of the city’s water in August 2019.

The ambitious New Yangon City project has reached a framework agreement in April 2018 for US\$1.5 billion for Stage 1 infrastructural work, including two bridges, roads, power plants, water and wastewater treatment plants and an industrial estate.

The Kinmoonchyon and Shwenettaung Dams in the Athayan River will be able to supply 6.5 million gallons of drinking water daily to the 14 wards in Mawlamyine by 2022, according to Mon State Development Committee.

In 2019, Myanmar has approved a loan worth EUR29.96 million from the Netherlands FMO and ING Bank to build a water treatment plant with the capacity of 7 million gallons per day (MGD) in Pyigyidagun Township, Mandalay Region.

IGE Energy Co Ltd has introduced a new substance in effective biological wastewater treatment – PVA gel, or polyvinyl alcohol hydrogel. Lasting for at least a decade, the gel is said to be able to cut time and costs in casting off waste.
